EXPERIENCE

Senior Front-End Engineer September 2017-June 2019
Conenza, Seattle, WA

- Head of both UI/UX development and design for a social media company bringing in 7.1 million dollars in annual revenue
- Implemented site-wide UI redesign, improving the look and functionality of 22 pages and workflows for desktop and mobile
- Refactored multiple portlets from antiquated JS frameworks to vanilla javascript
- Acted as technical and design liaison for 10+ clients on matters of UI/UX, collaborating with their in-house designers and developers

UI/UX Director Feb 2017-August 2017
Hitachi Data Systems, Bellevue, WA

- Head of UI/UX design and development for all HDS datacenter management software in North America

Software Development Engineer, UI/UX May 2015-February 2017
Hitachi Data Systems, Bellevue, WA

- Lead UI/UX designer for worldwide multi-million dollar datacenter management software
- Performed usability studies to get UX feedback from our customers
- Created wireframes and mockups using Photoshop and Illustrator
- Implemented these designs using ASP.NET as well as Angular 1, HTML5, Sass, and JQuery/Vanilla JS

Software Development Intern January 2014-August 2014
HeliTrak Inc., Gig Harbor, WA

- Developed modules for determining source to object code traceability. Produced a document detailing the project that was then approved by the FAA
- Wrote scripts for IBM's DOORS that increased the efficiency of doing requirements traces

Freelance Graphic Designer September 2014-Present

- Mobile UI/UX design, icon design, logos, and branding for organizations ranging from non-profits to financial planning firms
